

CENTER FOR COMMUNITY SOLUTIONS

PURPOSE

To end intimate partner and sexual violence and give voice to those who have been silenced by these crimes.

SAVE LIVES

1 in 3 women are victims of intimate partner and sexual violence.

Domestic Violence is the single largest cause of injury to women.

ELIMINATE WAITLIST

The #NoMore and #MeToo movements have raised the volume of our collective voices and created a surge in hotline calls and requests for domestic violence and sexual assault healing and intervention services.

Help CCS eliminate waitlist for services.

PREVENTION

Intimate partner and sexual violence affects all socio-economic, ethnic, religious, racial, age & gender backgrounds.

Violence is learned. It can be unlearned. Prevention education is the key to ending the cycle of violence.
